Design Links:
https://www.figma.com/file/dflaGXC6EfwEYhufOlxtHQ/LeapifyTalk?node-id=1%3A8
Testing Url: https://musing-saha-2d39c9.netlify.app/
Goal:
User experience testing is the process of testing different aspects of user experience to determine the best way for a website and its elements to interact with its audience
Instruction:
Go through the above design link. Understand the scope of the website.
You have to create a UI/UX testing report. Find as many bugs as possible in terms of fount, text navigation, and icons etc.
Below is examples -

Note:
1. Make a report on above format
2. Find as many UI/UX bugs as possible.. More you find better chances of getting shortlisted
